

20mm "as dug" ballast/sand & gravel mixed aggregate can be used as an 'all-in-one' aggregate with cement and water to produce coarse concretes.

Applications

- Borehole backfill
- Concreting security covers

Features

- "As dug" ballast mix
- 25kg plastic bag

Suggested Mix Designs - For Coarse Concrete Mixes

- 1 part Ordinary Portland Cement
- 6 parts 20mm Ballast

Coverage

- One 25Kg bag will make a concrete mix sufficient for 0.35m² @ 50mm depth
