

Daisy covers originally designed and developed by MGS offer high security closure for installations within petrol forecourts or similar industrial environments.

Designed in accordance with BS EN 124 they are made from heavy duty cast iron and mild steel and tested to B125 rating.

They can be installed easily into either a pre-drilled circular hole or concreted into grade and are water resistant due to the internal gasket sealing ring.

Fitted with counter sunk stainless steel locking screws which can be undone and re-locked easily, they offer a simple and secure locking device for groundwater monitoring wells.

They are marked 'Monitoring Well DO NOT FILL' for clear identification and to avoid any unauthorised access.

Applications

- Petrol forecourts
- Industrial areas
- Car parks
- Driveways

Features

- Water resistant
- Badged for extra security
- B125 rated
- Lockable

Specifications

Nominal Size (inch)	Flange Diameter (mm)	Flange Thickness (mm)	Skirt Diameter (mm)	Height (mm)	Clear Open Aperture (mm)	Weight (kg)
5	180	3	120	150	80	2.05
